## Education

---

### Addis Ababa University

Information-science

Addis Ababa, Ethiopia

- **Relevant Coursework:** Software Requirements Engineering (Requirements Analysis), Machine Learning, Robotics, Software Design Architecture (UML Design Patterns), Prompt engineering, Web Engineering (Full-Stack Web Development), Mobile Development

## Experience

---

### Brana Software Solution

Jan 2026 – Present

Frontend Developer

On-site / Remote

- Contributing to production frontend features using Next.js and modern UI patterns.
- Collaborating with backend and design teams to implement existing UI designs accurately.

### Blue Peak Web Solutions

Oct 2025 – Dec 2025

Frontend Developer

On-site

- Deliver responsive, high-performance websites and scalable e-commerce solutions.
- Build internal systems (inventory, booking, dashboards) to streamline operations.

### Skyscanner

Sep 2025 – Nov 2025

Frontend Developer (Virtual Internship)

Remote

- Developed an interactive travel-date UI, improving user task efficiency by 22%.
- Customized UI components and integrated automated testing for reliability.

### Abrham Kebere EMC

Feb 2025 – Oct 2025

Frontend Developer

On-site

- Redesigned the company website, enhancing usability and engagement.
- Built AI resume analysis platform, improving hiring efficiency by 55%.

## Projects

---

### Blood Donation Management System | *Golang, Vue.js, Nuxt.js, Grap, TypeScript, Tailwind CSS*

- Designed and developed a comprehensive full-stack blood bank management system to streamline donor registration, blood inventory tracking, and hospital request handling processes.
- Integrated real-time updates and SMS notifications to improve communication and response time.
- Designed responsive, reusable UI components and built a scalable backend architecture to handle high-volume data and critical operations.

### HR-Ai Agent | *React.js, Next.js, Node.js, Express, TypeScript, Tailwind CSS, Supabase, VAPI, Gemini 2.0*

- Developed an AI-powered HR automation system that analyzes job applications and matches candidates against company requirements using intelligent text processing.
- Automated candidate screening, evaluation, interview invitations, and scheduling based on interviewer availability.
- Built a full-stack scalable architecture with secure authentication, real-time data handling, and responsive UI for managing candidates, job postings, and interview pipelines.

### Swift Delivery Secure Platform with Payment Integration | *Next.js, React.js, Nest.js, Postgress, Chapa, Tailwind css*

- Developed a full-stack e-commerce platform with secure authentication, role-based access, product and order management.
- Integrated chapa and mpeasa for secure payments and built an admin dashboard with analytics for orders, transactions, and users.
- Implemented responsive, modern UI components, global state management with useState, and scalable backend APIs for production-ready deployment.

## Technical Skills

---

Golang, Vue.js, Nuxt.js, Nest.js, JavaScript, TypeScript, HTML, CSS, Python, React, Next.js, Tailwind, shadcn/ui, Redux, Zustand, Framer Motion; Node.js, Next.js API Routes, sanity, Postgress, GraphQL, Firebase, Appwrite, Supabase; Stripe, OpenAI; Git, GitHub, Vercel, Component-Based Architecture, State Management, REST APIs, LLM, NumPy Authorization, Performance Optimization, Debugging, Deployment
